Manufacturer's Description

Azimuts new flagship is in its final phase in the new boatyard in Viareggio. With a gliding keel and 4,000cv MTU engines this 35.4mt long and 7.4mt wide yacht, designed by Righini, is built on two and a half decks. It has three large lateral elliptic windows and six large vertical portholes on both sides of the hull illuminating the guests cabins. The sundeck has two electric hard tops which, from the central mast, extend towards aft and stern guaranteeing shade for the Fly, which is also equipped with a Jacuzzi. The design developed by Righini and Galeazzi guarantees maximum flexibility, an essential condition for these dimensions and offers the customer three versions, all with five cabins and all with private bathrooms and ample communal spaces. The first unit was designed and decorated by the architect Mauricio Gomez de Tuddo who masterfully interpreted the customers desire for linearity and essentiality.

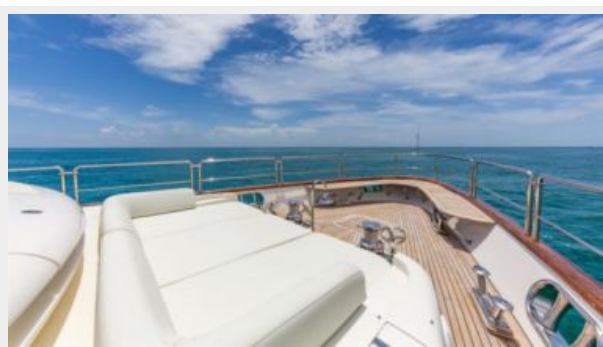

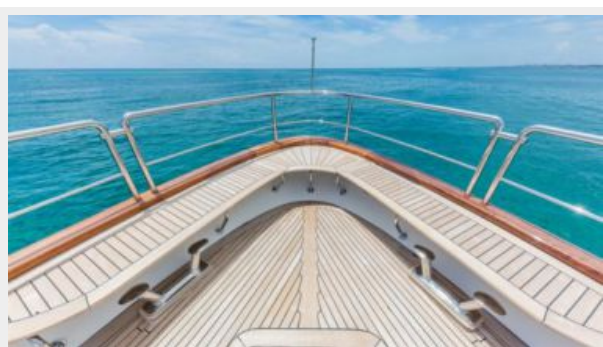

Exclusions

Owner's personal belongings.
