Hull Material: Fiberglass

Deck Material: Teak

Hull Configuration: Modified V-Hull

Engine Information

Engines: 2

Manufacturer: Caterpillar

Model: C-18

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Overview

Designed and built for comfortable, safe and dependable cruising. The attention to detail in every facet of construction is what every discerning yacht owner would expect in a semi-custom yacht. This solidly built cruiser with covered side decks features a wide 17' 8" beam which allows for large and comfortable living spaces with luxurious amenities. The planing hull incorporates a modified deep-V design with high forward deadrise sections for a smooth entry in head seas and flatter aft sections with split-chine design by renowned Naval Architect Howard Apollonio to provide an efficient planing surface, resulting in a comfortable, stable and safe ride. The hull design also incorporates propeller tunnels to lower the propeller shaft angle for greater efficiency and directional stability. The 100% hand laid fiberglass hull is molded in one piece with five outer layers of vinylester resin for blister resistance. The hull is solid fiberglass reinforced with 2 layers of Kevlar from chine to chine and 3 layers of Kevlar in a forward collision zone. The deck, deckhouse and flybridge are cored with high strength "Divinycell" utilizing modern construction techniques for maximum strength to weight ratio. The pilothouse offers excellent visibility and features a large instrument panel. A settee, with a custom finished table, offers a comfortable place to sit and converse with the captain while under way and can also be converted to a dinette for six at the dock. The fly bridge offers a large seating area with adjustable height table, helm bench, jump seat, wet bar, refrigerator and BBQ space. The main salon is warm and inviting with a lounge to port and two sitting chairs to starboard. The salon is equipped with the very latest in high-tech audio and video entertainment equipment, including a 49" HD/ LCD TV and Bose surround sound system. The galley, located amidships on the main deck, enjoys ample light from the pilothouse windows and has access to both salon and pilothouse. Premium appliances are complemented granite countertop and top quality fixtures. Her 17' 8" beam allows for three spacious staterooms with plenty of storage and comfortable amenities. Custom built-in dressers, nightstands and vanity spaces adorn each stateroom. The master stateroom features a king size bed with excellent storage space and cedar lined hanging lockers. The master head has a shower tub lined with Corian, premium quality faucets and Corian countertop. Each guest head also features a beautifully designed enclosed shower stall. The VIP stateroom is forward with a centerline queen size bed and abundant locker and drawer space. An aircraft style door in the transom leads to the large swim platform, and easy access is provided to the engine room that has been carefully designed with an emphasis on serviceability.

HULL SUPERSTRUCTURE AND DECK *Kept in storage from May - October 2018

Exclusive Hampton Split-Chine Hull designed for comfort, safety and efficiency
 Vinylester resin for first 5 layers of hull lay-up 2 layers of Kevlar from chine to chine and 3 layers of Kevlar in the forward collision zone Hand-laid fiberglass deck, deckhouse and flybridge cored with high strength Divinycell foam Hull/deck joint through-bolted every 6", sealed w/3M 5200 sealant, glassed over with 3 layers of
