Interior Designer: H2 Yacht Designs

Engine Information

Engines: 2

Manufacturer: MTU

Model: 10V 2000

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Description:

Remarks: Designed by the internationally renowned H2 Designs, Andreika was built at Alpha Yachts Shipyard. These boats are constructed to a very high standard using techniques generally only seen at Northern European yards. Specifically:

- * Floating floors, walls and ceilings, which dramatically reduce sound transmission and vibration throughout the yacht
- * All wiring is number-coded and run through chases
- * Color-coded plumbing and piping throughout the vessel - unparalleled in a yacht of this size (see photos)
- * Average ceiling heights of 7' 4"
- * 3" thick interior doors with Soss concealed hinges

These are just a few examples of the many high-quality large-ship features found on this vessel.

Her 26' + beam and the remarkably creative use of space both inside and out, give this boat the volume of a substantially larger yacht. Her surprising utility and dimension is clearly seen in areas like the dining salon, which is encased by disappearing glass walls; and placing the lower helm all the way forward provides room on the main deck for a guest suite, and creates space for an exceptional vantage point for operating the boat.

With 232 gross tons of volume, her interior is 31% larger than a 112' Westport. That's more than 1,000 square feet of additional living space, making her larger than virtually everything else in this size range. You really feel that difference when you're aboard. Andreika also has a remarkable amount of exterior deck space, yet still offers wide walk-arounds for transitioning fore and aft. Although her overall layout has an undeniable orientation towards island-hopping and water sports, she still offers a 2800 mile range for making long ocean passages. Alpha Custom Yachts has created a beautifully executed, very high-quality and really unique motoryacht that has inspired the owner of Andreika to build larger with this same yard. Once you step aboard this virtually new and exceptionally well-maintained boat, you'll know why. PRELIMINARY SPECIFICATIONS: Generators:

2 X Kohler 65kw Hours 4115 port / 4809 stbd.

Electronics & Electrical:
