SPECIFICATIONS

Overview

COCAL is typically a circumnavigation & long-voyage sailing-yacht for family or charter use. Her 75 ft hull is made of 10mm thickness aluminum plate at her bottom and her interior is separated in 6 water-tight compartments, including 2 inside water-tight doors, letting free access to different area of the boat. These features make COCAL the ideal partner to explore the furthest destinations through oceans in absolute safety. She also has a double steering, with an inside steering wheel & electronic display to stay dry & safe during rough weather voyages.

Her 11T hydraulic swinging keel allow her to draft 1.4m to go through the shallowest passages and anchorages when she reaches 3.1m draft in open ocean to offer real sailing performance and stability.

Her layout allows to accommodate up to 8 guests overnight in 4 staterooms, with 3 heads.

Her sails wardrobe is impressively extended with 2 main-sails, 2 genoas, 1 staysail, 1 gennaker and 2 spinnakers, mentioning that one full set of sails is bright new.

Her engine had an overall in 2006, generator, B&G electronic, water-makers (X2) and air-condition are bright new (2018).

She is equipped with a tender and diving compressor.
