DETAILED INFORMATION

Features

BROKERS WALK THRU A great example of a 33 Cape Dory. Very well constructed and also has minimal crazing for a Cape Dory model. Built like a tank the long keel will make for excellent sailing. The boat has been very well cared for by the current owners who have owned the boat for 15 Years. She was originally a Great Lakes Boat before she was sold to her current owners in Maine. The vessel has been used in Florida for her most recent years during the cooler months and stored and strapped for the hurricane season. The sellers have just spent their last season sailing and will be looking forward to new adventures. They would like to sell to a sailing couple who will care for the boat as well as they have. **33 CAPE DORY REVIEW** The Cape Dory 33 is a masthead sloop with powerful lines and is easily driven, responsive and stable. Below deck inspection will reveal a boat that stands apart from most production sailboats. Cape Dory's craftsmen, in their New England tradition, have used select hardwoods with careful joiner work to produce a warm and inviting interior. Accommodations are comfortable and functional, from the forward stateroom to the navigator's area. Most importantly, you are assured that during every stage of her construction, skilled and concerned craftsmen were responsible for your Cape Dory. Whether offshore or in the bay, cruising in a Cape Dory 33 means cruising comfortably in a boat that offers pride of ownership as well as lasting value. **CHANGES BY CURRENT OWNER**
