Stable in all conditions, economical to operate with twin Yanmar Diesels. The perfect boat for the family or a cruising couple. The Endeavour Trawlercat 44 is a "Fast" trawler with more space, features, equipment and stability than you can imagine. Endeavour has designed a vessel that runs fast (15-17 knot cruise, 20 knot max) but at the same time can cruise at normal trawler speed (seven knots) at only 2.5 gallons per hour (that is total consumption, not per engine). With this kind of performance, the trawlercat draws only THREE FEET and has totally protected props. Nothing was spared in equipping this vessel. For example, she has twin 260 HP 2014 turbo diesels with less than 250 hours, a 6KW Northern Lights generator with only 123 hours, New 2018 Garmin Integrated Electronics Package, GPS, chartplotter, radar, autopilot, wi-fi antenna, heat/air throughout the vessel, separate heat/air in the Pilot House, side-by-side refrig/freezer in the galley, separate deep freeze, two heads each with walk-in shower, davits, anchor windlass, and the list goes
