DETAILED INFORMATION

Accommodations

No other vessel in her class of this size can offer the immense interior volume with four staterooms. Whenever you decide to tie up or anchor, Bahamas, Florida Keys, or any Coastal cruising you will have as much room as a large condominium.

The vessel is easily boarded port or starboard midship along the wide side decks with sturdy stainless steel hand rails. An aggressive non skid exterior sole insures sure footing all around. The bow boasts a powerful Ideal Windlass with all chain rode. New forward deck cushions provide a comfortable vantage point to soak up the beautiful views underway.

Convenient port and starboard pilothouse wing doors provide quick access to the wheelhouse. The wheelhouse features a wealth of mechanical gauges, electronics, and electrical panels to control all functions of the vessel. A wide central bench seat allows captain and crew comfort underway. The parquette floor was recently refinished. Other wheel features include forward window shades, refinished wing doors, and new LED overhead lighting.

Aft of the wheel house is the spacious galley. The galley has forward and aft pass throughs so the chef can communicate with guests in the salon or in the pilothouse. Galley highlights include full size appliances, Korean countertops, tile floor, triple stainless steel sinks, and abundant storage.

Just aft of the Galley is the Salon which is as big as you would find on most 80 footers. The salon features a full size dining room table for six forward to port. Across to starboard is a wet bar with sink and ice maker. Aft is a huge L-shaped settee to port with a large birds eye maple glass accent table. Across to starboard is a ratan chair and entertainment center with new pop up TV. There is also a staircase which allows you quick interior access to the flybridge. Other salon appointments include a light vinyl overhead, textured burbur carpet sole, and accordion window blinds all around with remote control window blinds aft. Two large aft sliding doors provide a quick access to the aft deck for line handling or down the stainless steel ladder to the swim platform for easy boarding by tender.

The flybridge has a forward central helm with three captains pedestal chairs. The captain and guests will enjoy a 360 degree view of their voyage. New Ray Marine electronics, along with recently serviced stabilizers will provide the captain and crew safe and pleasant underway experience. The bridge also includes all new aft deck lounge cushions, new forward and aft bimini top with new four side enclosure. There is also access to the bridge aft deck for grilling or launching a tender.

A staircase on the starboard side of the salon going down provides access to the lower

companionway. The first room facing port is a laundry room and storage. There is a Splendide washer and dryer. Another doorway with inspection port leads into the stand up engine room. There is plenty of room to get around all sides of the engines. AC & DC lighting makes for a wonderful working environment. There is also a large work bench with vise and tool box.

All the way aft is the Master Stateroom. There is a large king Size walk around bed against the aft bulkhead with pedestal cabinets on both sides with reading lamps. The forward bulkhead has an entertainment center with TV, stereo, and DVD player. There is an enclosed head forward to port with full size shower and tub. Other features include Vacuflush head, pedestal sink, and large mirrors. There is also tremendous storage in the master closets and a cozy L-shaped reading nook.

From the wheelhouse down the staircase leads you into the forward companionway. Forward is the VIP Stateroom with island queen berth. Other features include private head and shower, TV, reading lights, and abundant storage.

Moving aft are the two additional Guest Staterooms. The port midship stateroom has a double berth. The starboard midship stateroom has two single over under berths. Both staterooms have separate access doors to the adjoining head. The head has a Vacuflush system stand up stall shower and molded in sink with large storage mirrored vanity. Both Guest Staterooms have port lights, tall closets, teak wall coverings and all new soft goods.
