DETAILED INFORMATION

Overview

This golden dream yacht has everything you need for a blue water adventure, whether it's dock side relaxation, or luxurious day trips. The aluminum hull and super structure makes this yacht a vessel made to last. The naval architect and exterior designer of the yacht is John G. Alden. She was built by Ortona Navi Shipyard in Italy. The interior designer of the yacht is Charles T. Stifter and Debbie Tucker. The Golden Rose's sleek lines give her a strikingly fine visual appearance, as well as the exquisite interior design. The golden Makori maple highlighted with lighter Fries maple creates a rich golden environment which works perfect with the LED remote controlled colored lighting system and unique lighting design throughout the vessel. The ample golden blend of exotically rich wood creates an open feeling while creating an abundance of discrete stowage spaces hidden beneath what appears to be just a decorative panel. Some of the luxuries on the flybridge include two hydraulic davits for raising and lowering the tender or brand-new jet ski, a 2-person hot tub, multi-colored remote-controlled lights, BBQ grill, and Full navigation and control of the yacht from the fly bridge. There are two sections of comfortable seating that cup around the impeccably designed tables that feature a clear top and doubles as a sky light for the lower deck, or a delightfully ringed lighted conversation piece. As you step down to the raised pilot house you can see the surrounding view of the boat on the video cameras, as the camera picks up the reflections of the newly installed underwater lighting.

Accommodations

The interior design makes a statement as refined as her exterior lines. The sculptured interior of rich colored Makori maple contrasting with lighter Frise maple gives the living spaces a more expansive and open feeling than expected on a yacht of her size. Throughout the vessel, marble, granite and leather compliment the quality workmanship found on board. New 80" Vizio Flat Screen TV in salon. The master stateroom is located midships and is truly impressive with a centerline king-sized bed, study area, ladies dressing table and entertainment system with stereo, TV, VCR and DVD. The private master bath provides a large Thermasol whirlpool bath and granite counters. The two mirror image guest staterooms are located aft and each have twin lower berths and a concealed upper pilot berth. Both have private baths with enclosed shower/tub. The crew quarters are forward and feature a separate captain's quarters, (2) crew quarters and (2) heads with shared showers. There is a small dinette with entertainment center for the crew. The galley is forward and can be described as a large, completely upgraded granite kitchen with subzero fridge and freezer, Wolf oven and microwave, and glass stove top. The dinette seats (8) people. The main salon and dining areas are on deck and designed to satisfy your every need and expectation. The main dining table seats (8) guests. The wet bar, work desk and state-of-the-art entertainment system

add ambiance to the salon. A unique system of lighting and sky lights bathes the salon in a beautiful combination of natural and artificial light. The aft deck is air conditioned and is easily opened with a minimum of effort for less formal dining and access to the swim deck, complete with freshwater shower. The aft deck can be closed off from the rest of the yacht via glass sliding doors, and the salon can be closed off via glass wing doors at the port and starboard entrance. Up from the main salon is the pilothouse with extensive, up to date instrumentation and comfortable seating. The bridge deck offers (2) large seating areas, perfect for cocktails and conversation under the shade of the Bimini top, as well as additional sun cushions. The bridge deck has a wet bar and stereo equipment to further guarantee comfort and enjoyment for owner and guests.

Galley

• Stainless SubZero • Side-by-side freezer/refrigerator • Wolf ovens • Wolf countertop range • Allure range hood • Askow dishwasher • Kitchen Aid Trash Compactor • Wolf microwave • Granite Floors and Counter Tops
