Cruise Speed: 26 Kts. (30 MPH)

Cruise Speed RPM: 2000 Kts.

Cruise Speed Range: 275

Max Speed: 31 Kts. (36 MPH)

Max Speed RPM: 2320 Kts.

Displacement: 115079 Pounds

Water Capacity: 262 Gallons

Holding Tank: 55 Gallons

Fuel Capacity: 1453 Gallons

Accommodations

Total Cabins: 4

Total Berths: 5

Sleeps: 8

Total Heads: 4

Hull and Deck Information

Hull Material: Fiberglass

Hull Configuration: Modified V-Hull

Engine Information

Engines: 2

Manufacturer: MAN

Model: V12-CR

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Manufacturer Provided Description

The Ferretti 731 is an expression of the Ferretti style: a highly innovative project born from a revolutionary concept of both outside and inside spaces. Starting from the unusual symmetric perspective of the spaces which dominates both the interior and the flying bridge layout. The full beam owner's cabin presents the most important innovations of Ferretti in terms of light and space solution: it has a large panoramic window on both sides allowing an open view of the sea also from the spacious semicircular shower, separated from the bathroom by a sliding door. The huge and comfortable living room and dining area have been designed following the symmetric layout of the boat, with a central position of the TV, double access at the bow area, and centralized pilot house, to make life on board even better and to enhance the brightness of the interiors. The external layout affords a more generous living area on the rear deck with an opening spoiler bench which offers its guests a comfortable experience to live the sea in absolute tranquillity.

Additional Description

- Anti Rolling Gyro Mitsubishi (2) MSM-2000 and MSM-4000
- Bow thruster (20HP)
- Bimini top (manual or electrohydraulic)
