Total Heads: 2

Hull and Deck Information

Hull Material: Fiberglass

Hull Configuration: Planing

Engine Information

Engines: 2

Manufacturer: Volvo

Model: IPS600

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Accommodation

Her sleek and assertive line is emphasized by the extraordinary, dominating flybridge. Large convivial space, totally open on the sea. At the front, the sunbathing platform extends the leisure and open air relaxation area. At the rear, the large hydraulic platform allows the easy storage of the dinghy or a jet ski and altogether more enjoyable access to the water. Barbecue fans can enjoy an outdoor kitchen at this level. In the cockpit, there is the option of a crew cabin or a large storage locker. The continuity between the outdoor and indoor space is provided by the sliding door which disappears from view completely. The main deck then becomes just one living space, all on the same level. The kitchen is located at the centre of the interaction spaces, on the main deck, right by the entrance on the left. Careful attention has been paid to the finishes. Colours have been matched in a variety of greys and all materials carefully selected, with a Corian worktop and lacquered furniture in light taupe. The saloon can be found further towards the wheelhouse. With a layout comprising two facing spaces, it is designed for get-togethers and sharing.

Additional information 1

This translates into elegance, refinement and quality. Her slim bow hull has been designed to sail in all sea conditions, thereby ensuring a safe passage. Purposely drawn to take a Volvo IPS engine, the MC5 offers a choice between the IPS 500 and 600. The perfect combination of the hull and selected engine make the MC5 an enjoyable and comfortable boat to sail. The MC5 style has a unique charm. She is a feisty yacht, with a streamlined look and a timeless beauty. Characterized by strong identifiers, the distinctive Aqua Blue colour of her hull, specially created for this model, makes her particularly eye-catching. However, she also comes in a wide range of hull colours to match everyone's desires, to reveal the temperament of her owner.

Additional information 2

The wheelhouse enjoys the very latest equipment in terms of technology. The soft, wet look leather pilot seat (optional) has been purposely designed. The single piece windscreen offers incredible visibility. Finally, the air-conditioning circulates on both levels through the ceilings, giving a consistent temperature throughout the boat. On board, everything has been thoroughly thought through: the choice of materials, light openings, balance of colours and textures. Nothing is left to chance. Every detail counts and this is what makes the MC5 so luxurious and elegant. The finish is faultless: Soft Touch brushed wood on the angles, wet look leather. Part of the furniture is upholstered with vegetal tanned leather, carefully polished on top by hand

Additional information 3

Because the MC5 should be a jewel in the eyes of its owner, the 2016 edition of the cruiser yacht has been designed with a variety of Walnut stained woodwork. This dark-coloured wood creates a completely new atmosphere, offering contrasts that will bring out features inside your boat and give it character. Married with a brown soft touch finish, cream-coloured padded lining and bronze highlights, this new cabinetwork proposal makes the MC5 particularly chic and attractive. This new choice between the elegant and contemporary light or dark brushed Oak and a cosy Walnut ambience, illuminates the interior living spaces of the MC5 giving them a new atmosphere. It demonstrates Monte Carlo's constant desire to extend the possibilities for personalizing their boats. The night space consists of 3 cabins, all designed to offer an individual feel, whilst maintaining overall harmony in shades of grey. The master cabin and VIP cabin are fitted with ensuite shower-rooms in which the combination of materials, transparency, stainless steel, grey brushed oak and lacquered solid woods emphasize the elegance and refinement everywhere else on the boat. The full-width master cabin is located to the rear and is flooded with natural light streaming through two large portholes. The VIP cabin is located to the fore. Comfort is provided by the two large panoramic portholes either side. It is very spacious and incredibly bright. The guest cabin includes 2 superimposed beds. Each bed enjoys its own porthole. Volumes, Comfort and Style are the main MC5 features. It stands for the same elegance and the same values conveyed by the Monte Carlo Yachts. Discover its « Classic, Forward » style!

Exclusions

Owner's personal belongings.
