Overview

\$365,000 PRICE REDUCTION!

This beautiful 2018 68' Sunreef Supreme Power Catamaran which was custom built with no expense spared turns heads wherever she goes. Her high contrast finishes in turquoise with both black and white accents make her very appealing to the eye. Performance wise she has everything you could ask for with a cruising speed of 15kts and a top speed of 25kts with her twin 800hp Volvo IPS power plants. Entertaining is the name of the game on this great platform. From her thirty-two-bottle wine chiller to her full bar setup in the spacious salon you and your friends will have the time of your lives. When you get tired of being inside the cabin you can make your way up to the flybridge where she has an additional bar and seating for plenty while you cruise in comfort. There is also a large sunpad forward to lay out and soak up the rays. Be your own island. You can drop the anchor in a remote spot and comfortably live with her two nineteen kw generators and large inverter. Rock Star 2.0 is also equipped with a tender, toys, and a dive compressor system. She would also make for a fantastic charter operation and has the appropriate safety equipment if you were looking to go that route.
