Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Detroit Diesel

Model: 8V92

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Overview

A great-looking boat with a long foredeck and muscular profile, the Post 50 combines the elegance of a yacht-style interior with the brute force of a well-bred offshore fishing machine. She's built on a low-deadrise modified-V hull with cored hull-sides, a wide beam, and a solid glass bottom. Unlike other Post designs, the 50's hull is not tapered at the transom which helps account for her very large cockpit. Several three-stateroom, two head floorplans have been offered over the years. Like all Post models, the interior woodwork and detailing are finished to high standards and the lush décor is very impressive. The cockpit (nearly 150 sq. ft.) comes with a full array of fishing gear including a molded tackle center, transom door, and direct access to the spacious engine room. (PowerBoat Guide)
