DETAILED INFORMATION

INTRODUCTION

Built by Benetti in 2018, with exterior design by Stefano Righini and an interior by Francois Zuretti, Perla is near-new Benetti Classic Supreme 132 model. Perla can welcome 12 guests with six luxurious staterooms including the master, VIP, two doubles and two twins. The full beam master is located forward on the main deck, with comfortable lounge seating and a large marbled ensuite. Generous dimensions paired with full-height windows combine to create a welcoming onboard environment, with numerous different spaces to enjoy. The light and contemporary interior is complemented by colorful artworks and soft furnishings. At the heart of the yacht, the main saloon is home to a full dining and bar - both ideal for entertaining - with lounge seating and an entertainment system. A second large guest space is the sky lounge which features lounge seating, a large LED television, games table and full bar, with this lounge connecting with the modern bridge. Several outdoor spaces include a sheltered dining space on the main aft deck, with stepped access down to the transom. Steps lead up to the upper deck which has a relaxed seating area complemented by a sheltered al fresco dining area and bar. A stand out design feature is the expansive sun deck, with over 100sqm of space, which features ample seating, another al fresco dining table and bar. The forward deck has yet more seating and sunpads combined with a jacuzzi, providing another inviting space to socialize and relax. Powered by twin MTU engines, Perla moves easily through the water with her streamlined profile, cruising at 12 knots with top speeds of 16 knots. She carries a good line up of toys and tenders to ensure maximum enjoyment on the water. The tenth yacht in Benetti's acclaimed Classic Supreme 132 line, Perla is a pedigree build with very little use and is the perfect opportunity to secure a practically new build with no wait time.

PROPULSION MACHINERY

MTU12V2000M72, of 1080 kW (1450 HP) @ 2250 rpm each, with Blue vision NG basic. Two turbo charged after cooled four stroke diesel engines suitable for marine propulsion. Each engine equipped with the following features: · liquid cooler, · exhaust gas turbocharging, · aftercooler, · oil heat exchanger, · fuel oil and oil filters, · expansion tank (as necessary), · electronic governor, · fuel oil feeding pump, · sea water pump, · control panels, · oil pressure gauge, · cooling water temp gauge, · others as per Manufacturer recommendation. Gear Boxes A reduction gear box ZF 3351A for each engine. Main Generators The generating system consist of two diesel generators with the following characteristics: Manufacturer: Kohler Models: 80EFOZDJ Rated outputs: 80 kW Rated voltage and frequency: 400V AC / 50 Hz Number of phases: 3 RPM: 1500 Rating: Full load continuous Insulation class: H Tension regulation: ± 0.5 % Frequency regulation: ± 0.5 % Starting system: 24 V DC Bow Thruster A electrica bow thrusters (CMC BTM60) provided with an electrical motor having 52 kW input nominal power

supplied by generators. Voltage will be 400 Vac, 3 phases, 50Hz, duty cycle S640%. The propeller thrust about 820 kgf. Grids on bow thruster tunnel. Control joystick installed on the wheelhouse console and on wings control panels. Stabilizer Fins A pair of electrical stabilizer fins (CMC SE120) working underway and at anchor provided. The fins provided with an electrical motor having 7 kW input nominal power supplied by generators. Fin area 2.00 m². Control panel installed in the wheelhouse. Installation done strictly according to Manufacturer instruction. Voltage will be 400 Vac, 3 phases, 50Hz, duty cycle S1.
