Hull Designer: Jack Sarin

Engine Information

Engines: 2

Manufacturer: Cummins

Model: QSC 8.3L Common Rail

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Symbol 55 Classic

Welcome to the Symbol 55 Classic, an ideal pilothouse yacht for those that want to go farther for longer in complete safety and comfort...all in a manageable size perfect for the owner/operator.

Thoughtfully designed for safe and easy movement throughout the vessel with high gunnels, portugese bridge, wide walkways and steps. Upper and lower helm stations, bow AND stern thruster and Yacht Controller docking remote allow you to take control with confidence!

Quality of construction is apparent in the smooth ride, further enhanced by the fin stabilizer system, allowing for a larger acceptable weather window for travel...you will be smooth and stable in the Symbol 55 Classic even in rougher weather.

Marvel at the extreme attention paid to the custom Aritex designed stainless steel fixtures throughout the vessel...from the heavy duty bow rails, to the pilothouse doors, to the beefy table pedestals...wow I am highly impressed throughout...all top of the line custom 316L stainless steel.

Storage space is abundant throughout this thoughtfully laid out vessel, no need to compromise on gear and supplies for those longer trips!

SLOW RIDE is a superb example of a Symbol 55 Classic, kept in excellent condition throughout both mechanically and cosmetically by her knowledgeable owner.

Aft Deck and Swim Platform

- Integral swim platform on transom with stainless steel staple rails port and starboard
- Pop-up cleats on swim platform port and starboard with chafe guards
- Transom door to starboard
- Stainless steel hawse pipes with rollers port and starboard transom and cleats below
- Cabinet on transom for 50amp glendinning shore power cable inlet
- Secondary hawse pipes port and starboard forward of main ones with integral cleats
