## Overview

---

Ferretti Yachts 750 represents another step forward in the construction of the Ferretti Yacht diameter over 70 feet, featuring a 22.9 m overall length. Evolution of the successful Ferretti Yachts 720, it special many relevant innovations, both interior and outside. Result from the settled collaboration between Studio Zuccon International Project, AYT&D – Advanced Yacht Technology & Design and the Ferretti Group’s crew of engineers, architects, and designers, Ferretti Yachts 750 immediately strikes the attention for its outer profile, which is even sleeker and sportier, thanks to the fresh flybridge with an elongated tail. The flybridge is more roomy, since it is davit-free. In the outer rear area the distinguishing feature is the electrohydraulic swim floor, more than 1.5 meter long. It can be lowered 50 cm underwater, making the launching of the support easier. The swim floor can lift up to 450 kg and it can host a support of approximately 4 meters.

## KEY FEATURES

- 2 x 19 kW Onan generator
- Bimini top in stainless steel on fly
- Tropical air conditioning system
- Idromar 180 lt/h water-maker
- Tender Williams 385 turbo jet
