Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Overview

The V85 is one of the most exciting and innovative new models in the history of Princess Yachts. With breathtaking good looks, dynamic handling and thoroughbred performance she leaves no doubt that she represents the ultimate in V-class technology. Yet the broad beam, huge volume and ground-breaking design provide a level of luxury and flexibility previously unknown in this market. The efficient, modified deep V-hull allows searing performance but incorporates the handling advantages of conventional drive with a consistent, stable ride throughout the speed range and precise maneuverability at close quarters.

This 85 Princess accommodates up to 8 guests in 4 en-suite cabins. All new Zeno mattresses (2016). 2 crew cabins with 2 berths in each for up to 4 crew and small galley and head with shower.
