SPECIFICATIONS

Overview

Built in steel and aluminium by Turkish yard Mural Yachts to an in-house design and RINA classed, Meteor was delivered as recently as summer 2018. An interior in oak and sycamore veneer with teak trim accommodates ten guests in five cabins laid out as a master suite, three doubles and a twin. All guest cabins have entertainment centres, television screens and en-suite bathroom facilities while her crew quarters allow for a staff of up to nine people aboard. Other key features on this tri-deck motor yacht include a large sun deck, an open aft deck, and a shaded cockpit beneath. The foredeck seating area is fitted with a C-shaped sofa and dinette and a central companionway provides access to the mooring area. In addition, a large swim platform means there are plenty of tender options on board Meteor. Power comes from a pair of 1,200hp Cummins KTA38-M2 diesel engines for a top speed of 16 knots. When trimmed back to 12 knots, a maximum cruising range of 4,800 nautical miles is possible thanks to a total fuel capacity of 56,000 litres.
