Overview

NEW LISTING - MORE PHOTOS COMING SOON!

Island Girl is a 2016 75' Prestige Yachts Flybridge. Prestige has raised the bar in the design of luxurious motor yachts with the creation of the Prestige 750. Crafted for full enjoyment of life at sea, the 750 features exceptional exterior living spaces, including an extra-large swim platform, a wide and spacious cockpit, and an immense, well-appointed flybridge.

The interior layout affords privacy and ease of movement on board, as the galley and dining area are on the same level, with a slight step up to the salon. Stretching fully across the cabin to a love seat on the starboard side, the main salon can easily accommodate eight guests, making it a perfect area for family and guests to relax and socialize.

Forward of the helm is access to the beautiful, full-beam master stateroom. With plenty of space and ample storage, the owner's suite includes a lounge area to port, a desk to starboard, a large walk-in closet, and a head with a separate shower. Below deck are three guest staterooms, a VIP and two cabins with twin berths. A crew cabin with two berths is found in the stern of the boat.

As you step aboard the teak covered deck, you notice the elegant and contemporary appeal the back cockpit has with retractable aft sunshade, mounted wood table and bench seating for multiple guests. As the semiautomatic stainless-steel saloon doors open you will find a sun-lit and spacious galley and salon accompanied by a stunning dining area only found on a yacht of this caliber. To your left, the galley provides all of the amenities needed for long luxurious travels. Framing the dining area is crafted dark wood storage compartments camouflaged as framing and small counter-space on top. A small step up from the galley and dining area, you are welcomed by a spacious and comfortable salon with 2 sofas and 2 lounge chairs able to seat a large group.

Taking a small step up to the left, the Helm features leather bench seating and an array of non-glare Raymarine electronics. Moving down a few small steps, you are greeted by the stunning design and open-feel of the Owners Stateroom. With exceptional volume and plenty of room to walk around the room you will find a walk-in closet, desk, storage cabinets throughout and a master head prepared to accommodate 2 guests comfortably.

Moving down the under-lit stairs you reach 3 staterooms and a forward head. The VIP guest stateroom located in the center of the vessel with large port windows lighting up the room, will wow your guests and is sometimes even chosen as the owner's suite, as both staterooms provide extreme elegance and space. The VIP's head compares to the

size of the master head with generous storage and shower space. Across from the VIP stateroom is the 2 staterooms with twins in each, both rooms can easily be transformed into one larger bed with a middle insert. One berth has a connecting door to the forward head allowing for easy accessibility.

The teak-lined walk-around bow gives the superyacht feel while leading you to a sunpad and bow seating area for those who like to enjoy the sun and the view. The flybridge overlooks the bow and the stunning atmosphere that your excursion provides. With an upper helm with a double bench and forward-facing settee, the entire family can enjoy the view from the captain's seat. A large mounted teak table and bench seating all around allows for large parties to have plenty of seating space. A spacious sunning area or room for tender lines the back of the flybridge.

The crew quarters and engine room can be accessed from the swim platform through a water-tight transom door. Down a few steps, the entrance of the engine room with a combination washer/dryer to the left and the door to the crew cabin to the right. With adequate living space for sleeping and showering, the 750 provides a cabin to accommodate 2 crew members.

The engine room is well laid out with adequate headroom and more than enough room to walk around the MAN engines. At the forward bulkhead, the twin generators and other features such as Engine Oil Change System, Engine Driven Emergency Bilge Pump, Automatic Fire Fighting System, and a camera in engine room.
