Overview

Papa Jack is presented by Galati Yacht Sales, Los Sueños Costa Rica. This Viking 52 Convertible is as clean and dialed in as you will find in a late model convertible with a tower. With a brand new Seakeeper 9 offering 89% roll reduction, Papa Jack is a turnkey boat ready to fish the magnificent waters of the Costa Rican Pacific Coast. This Viking 52 was built by a knowledgeable team to include everything you could need without the unnecessary clutter. The 52 is fast, dry efficient and has the range to run with her larger siblings. This one features a PBT West Coast style tower, Release Marine teak helm pod and Battle Saddle, all new electronics package, extra fuel, water maker, ice chipper, VIP forward crossover. Don't miss this amazing opportunity to own the best in what the Viking 52C has to offer.

DETAILED INFORMATION

Manufacturer Provided Description

The Viking 52 Convertible is another impressive addition to our world renowned stable of blue-water tournament contenders. As you would expect from Viking, this model evolves from the introductions before it including the Viking 42, the Viking 55 and the Viking 62. In our commitment to build a better boat every day it is insufficient to merely add a fresh face to the line up unless it incorporates the latest treatments and engineering milestones and the Viking 52 has all this and more.

The resin infused hull boasts a sophisticated matrix of composite materials including end-grain balsa coring, DuPont Kevlar, and knitted fiberglass laminates. The one-piece deckhouse assembly stretching from the bow pulpit to the inner transom liner features carbon fiber in its composite structure. A molded fiberglass forepeak liner forward of the engine room sheds weight by incorporating the outer walls and floor, the lower port bunk, the sink base module and the shower pan for both heads, and the forward starboard bunk base. Maple lined interior hanging locker doors and cabinet and drawer fronts utilize a lightweight honeycomb core material.

Continuing along its evolutionary trail, the forward entry is sharpened to knife through head seas. The convex hull shape adds buoyancy and molded strakes on the bottom provide lift for planing efficacy. As a whole, these hull and the V-bottom features and the 11.8 degree transom deadrise, utilize horsepower most efficiently for better speed and faster throttle response in keeping with the theme of all new Vikings.

Viking 52 Convertible Manufacturer's Overview

American luxury sportfishing and cruising motoryacht builder Viking Yacht Company was founded in 1964. Today, this family-owned and -operated yacht company is a world leader in semi-custom fiberglass yacht production with over 4,000 boats delivered. To the passionate owners of these yachts, the word “Viking” is synonymous with “excellence”.

For those just getting into the world of tournament fishing, Viking’s 52 Convertible might just be the perfect choice. Complete with a spacious cockpit and all the basic amenities you need to chase fish, it also features three staterooms, two heads, and a generous salon and galley with island counter. Just as on larger Viking sportfish, lower-deck accommodations include a forward VIP, starboard-side master with queen berth,

and third stateroom with bunk beds that works equally well for kids, fishing buddies or crew. The flybridge helm station is positioned for optimal visibility in all directions. Storage space is maximized there and throughout. Overall, you'll find the Viking 52 offers plenty of onboard space, as well as great speed and maneuverability thanks in part to its running surface, which has narrowed and rangled chines for a smoother ride and for channeling spray downward.
