## Overview

---

Elegance 98 RPH is the result of joint work of Drettmann International (Germany) and one of the world yacht industry leading shipyard Horizon (Taiwan). When two companies of such level cooperate, the remarkable income is ensured.

30-meter custom Elegance 98 RPH M/Y Angara was built in 2008 and seems to be one of the most successful interpretations of the Elegance 98 concept. Despite the fact that 10 years have passed since M/Y Angara was launched, her exterior is timeless and still catches everyone's eyes in Mediterranean marinas. The interior made by the Hamburg design studio Schnaase is luxurious and cozy at the same time – such combination is something rare to find. The polished walnut wood in decoration creates a special relaxed atmosphere onboard.

The yacht has excellent seaworthiness. She impresses with a balance between functionality and comfort. Elegance 98 is powered by two MTU 2400 HP diesel engines and provides 15 knots cruising speed with the maximum of 24 knots. Horizon was the first shipyard that used the innovative design with raised pilothouse more than 10 years ago and thus became a trendmaker. Other shipyards started to use this architectural design with all its benefits only couple of years ago.

M/Y Angara is in excellent condition, all systems are in a good function. Jonacor Marine is an official distributor of Horizon yachts in Russia. As a Horizon dealer, Jonacor Marine has been following the construction of M/Y Angara from the very beginning and we were always beside.

M/Y Angara now has only the second owner. We can confidently say that a new owner will be happy with the yacht.
