Accommodations

Total Cabins: 2

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Cummins

Model: QSB5.9

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Layout and Accommodations

"Apres Sea" is a sleek, luxurious, and powerful flybridge motoryacht that has a wonderful layout both inside and out. Boarding the vessel through the transom door from the swim platform, one is greeted with a spacious aft deck with teak sole and ample shade and cover from the flybridge overhang above. A built in settee across the stern provides seating and lounge space and just aft is a passarelle for boarding from astern as well as doubling as a dinghy lift. A stairway leads to the unusually spacious flybridge with built in Lshaped settee and table. Just forward is the helm with a custom Lebroc captain's chair with swivel, recline and lumbar support. The Lebroc was added custom by the current owner and is a huge improvement on the standard chair normally found on these yachts. Also of note on the flybridge and exterior is a top notch Fusion sound system with four JL Audio 10" Subwoofers, two JL Audio 8" Mid Range Speakers and two 6" JL Audio speakers all driven by two 600 watt amplifiers. The sound is incredible and allows for music to be enjoyed even underway! Inside the cabin the salon is nicely balanced with a ushape settee with an electric hilo table to starboard and a built in settee with television behind to port. The ushape settee conveniently turns into a third sleeping area as a pull out double bed when needed. The salon also features a custom teak and holly wood floor with custom carpet runner as well. A few steps up and forward is the lower helm which has a helm bench for two, full suite of electronics and opening side window.

The galley is down two steps and to port and has abundant cabinet space, separate refrigerator and freezer, stove top and microwave.

The guest stateroom is midship and to starboard and has two twin beds as well as hanging locker. The guest head has a vacuflush toilet as well as its own stall shower. The master stateroom is forward and has a centerline double berth, dual hanging lockers and a private ensuite bath with vacuflush head and stall shower.
