Beam: 9' 8" (2.95m)

Speed, Capacities and Weight

Cruise Speed: 3 Kts. (3 MPH)

Displacement: 17640 Pounds

Hull and Deck Information

Hull Material: Composite

DETAILED INFORMATION

Description

The Triton 3300/3 is our most popular submersible and can take a pilot and two passengers to depths of 3,300 feet (1,000 meters) in perfect comfort and safety. This model is widely used by researchers and filmmakers. It was a Triton 3300/3 that allowed man's first ever encounter with the giant squid underwater. The Triton 3300/3 offers an unprecedented opportunity to show friends and family the ocean world. Dive on wrecks, both ancient and contemporary, explore the myriad denizens of the deep or laugh in wonder at the brilliant fish that inhabit the world's coral reefs.

Technical Specs
