Overview

RARE EAST COAST OPPORTUNITY

ONLY ENDURANCE 658 ON THE EAST COAST

SCHEDULE A MUST VIEW TO TRULY APPRECIATE

The history of Hampton Yachts begins in Taiwan 50 years ago where the Chen Family built the famous Formosa line of sailing yachts under the direction of the family's patriarch, C.Y. Chen.

In 1992 the Hampton Yacht Building Company was established and was one of the first Taiwanese companies to start yacht building in China. With the passing of C.Y. Chen, Jeff Chen, Managing Director, and C.Y. Chen's son, together with a select few investors and the Chen Family, expanded on his father's vision. Jointly they built the high tech facilities of today, and initiated the development of the very successful Endurance LRC series, which garnered international praise.

Today Hampton Yachts employs over 200 skilled craftsmen, finish carpenters, designers, engineers and naval architects.

While Hampton Yachts' heritage began in Taiwan, the company's success today, is very much a contemporary story. When the world-wide sailboat market started to soften, Hampton Yachts turned to Motor Yacht design and construction. Many of these new motor yachts were designed in-house under the able and talented direction of Jim Chen.

As success followed success, Naval Architect, Howard Apollonio was engaged to consult on new designs. One of the results of this ongoing collaboration, with considerable input from Hampton Dealers, has resulted in the Hampton Hybrid Hull that became the basis of the very successful Endurance LRC series.

None of the success would have been possible without the unwavering commitment to quality; in design, construction engineering and craftsmanship. A commitment started 50 years ago in Taiwan, by C.Y. Chen and carried-on today through the leadership of his son, Jeff Chen and a host of carefully chosen craftsmen, artisans and a worldwide dealer network.

And this 2015 Endurance 658-05 "My Way" is no exception. Highlighting "My Way's" distinctions include the reliable John Deere 13.5 Liter 750hp mains at 2,200 RPM with only 782 hours, ZF 360A gearboxes with 2.609:1 ratio, Glendinning electronic engine controls, Northern Lights 12kW & 20kW gensets with air/water separators, 4 engine control stations including two aft wing control stations, Magnum 4kW inverter system,

2 Charles Isoboost transformers, Charles Solid Power 5000 SP Series 20amp & 50amp battery chargers, LED 24v lighting throughout, Full Garmin electronics package with 5 GPSMAP 8215 multi-touch displays, A/V system including Bose and Fusion, MarineAir eight zone chilled-air airconditioning/heat climate system, Olympia hydronic diesel heat system with heated floors in galley and stateroom heads, KVH HD7 Tracvision satellite TV antenna system, 2-20 gallon hot water heaters, BluWater Legend 800 gpd watermaker, Flying bridge arcylc enclosure, 2 Glendinning Cablemasters with 50amp/125/250v 75' shorepower cords, ACR Globalfix Pro 406 MHZ Epirb, Revere 6 person liferaft(soft case), Brower 1,600lb yacht crane and Boston Whaler 13p Sport with Mercury 40hp outboard.
