## Overview

---

Great opportunity to purchase a fully loaded US spec Leopard 44 already positioned in the Eastern Mediterranean with loads of cruising extras. Owners change in plans brings this boat to market sooner than anticipated and priced for immediate attention.

Listing broker owns this boat personally and therefore has extensive knowledge and experience on this boat and welcomes any questions. She is one of the last 44s to be built prior to the offering of the new Leopard 45 series. This an OWNERS VERSION 3 cabin layout with the desirable Milk interior that has never been chartered and has no damage history. The boat has been meticulously maintained. She has benefited from continuous and daily care and has never been left on the hard or unattended and maintains a new boat look and feel. Many upgrades were made in the last 12 months prior to her leisurely and uneventful transatlantic crossing in May. Be sure to read through the full specs for the extensive equipment list and recent upgrades. If you have ever dreamed of cruising the Med, this is an opportunity not to be missed. If your desire is to eventually base the boat in the Caribbean or US, you get to enjoy the Med and the easy downwind sail back to the West without having to plan a round trip or unpredictable Eastbound crossing. If your goal is to keep the boat in the Med, she is here and ready today. In either case, the boat is equipped with a custom Wards Marine voltage transformer that will allow the boat to be plugged in anywhere in the world.
