SPECIFICATIONS

Overview

The J/27 is a fast sailing offshore sailboat capable of daysailing or cruising. Designed with a low & heavy keel with a generous sail area, the boat gives good handling in both light and strong winds. The Rod Johnstone-designed J/27 was first introduced in 1983, and 211 hulls built by 1992. There is plenty of support available through the owners association and the J/27 Class Association. Great as a beginner boat or prime for the serious one-design racer.
