SPECIFICATIONS

Overview

THUMPER is the most highly specified 40M Sunseeker ever built, a model which has proven to be incredibly popular with Sunseeker still seeing strong demand for new boats to this same design. It is an exceptionally versatile platform offering speeds up to 22 knots, yet flexible and light accommodation, impressive volume and large open deck spaces. As well as specifying every upgrade and option possible, THUMPER's owners went even further and brought in interior designers HPM to completely customize the interior.

Her unique HPM designed interior is fresh, clean and uncluttered, yet incredibly luxurious as a result of intricate details and finishes, such as the custom artwork from Based Upon, which combined with leathers, pale timbers, metals and semi-precious stones creates an interior which is without comparison among her peers.

HPM's fresh interior is made to feel even more so with the addition of floor-to-ceiling windows, skylights and drop-down side balconies. She happily accommodates 12 guests between a capacious full beam master suite on the main deck as well as four generous guest cabins on the lower deck, all of which benefit from her air conditioning and AV upgrades.

When it comes to entertaining, THUMPER excels. With a number of large deck spaces offering a variety of sleek sunbathing spots, informal seating and dining options, her Portuguese bridge is particularly good for breakfast. It's little wonder that there is a lot of demand to charter her.

THUMPER has been immaculately maintained and given her versatility, presents an excellent opportunity for anybody looking in this size range, particularly so for anyone who might be looking to run a charter operation. Her recent price reduction of 1,000,000 EUR makes her a very attractive sales opportunity and viewings are recommended. She will be available for viewings at the MYS (Berth L07), after which she will be berthed in Monaco throughout the autumn and winter.
