Overview

Preliminary Listing

Actual Photos of the Vessel Coming Soon!

Built by Grand Banks and designed in partnership with Tom Fexas Yacht Design, this world-class blue-water cruiser is distinguished by its raised pilothouse profile, a dramatically flared bow and exceptional teak craftsmanship throughout. With an extended cruising range and commanding pilot and navigational space, it's easy to see why this ship is a leader in its class. With teak decking, wide seats and dual transom doors that lead to the swim platform, the covered aft deck was designed with all types of entertaining possibilities in mind. The set-back flybridge with its generous seating arrangement, unobstructed visibility and potential to house all sorts of electronic equipment is also high on this yacht's "plus" list. In all areas, chilled-water air conditioning with individual controls translates into comfortable all-weather cruising.

Meticulously maintained by its current owners with an open checkbook. This boat will not disappoint!
