Vessel Walkthrough

DILLY DILLY is equipped with a hydraulic swim platform that is outfitted with synthetic teak and tender chocks. Entry to the cockpit is gained from either stbd or port side stairs with four steps up from the platform. Both stairs have entry gates at the top. The boat offers an unparalleled layout with the entire upper deck on one level. There are

no additional stairs traverse for a meal inside the well laid-out salon or to access the roomy cockpit for a cocktail or alfresco dining. The cockpit is complete with synthetic teak deck, retractable sun shade, U-shaped settee with a custom table aft, bar stools, grill to port with undercounter refrigerator/ice maker, light switches, and Volvo Penta docking control. Access to the bow can be gained from both the port and stbd sides. The side decks are outfitted with stainless steel grab rails. The bow seating group is perfect for sun bathing, enjoying a sunset or having a “party away from the party”. It features a crescent shaped lounge area with two reclining sun pads, cup holders, Polk marine stereo, a sunshade, and dedicated lighting.

From the cockpit, entry to the salon/galley area is through the full-length glass doors. The area has a panoramic sunroof. Immediately to port is the U-shaped galley complete with solid surface counter, convection oven, microwave, cook top, dish washer, twin stainless steel sink, and plenty of storage above and below the counter. To stbd is a solid countertop with drawer type refrigerator and freezer, Polk marine stereo, and Crusair control.

The salon is located forward of the galley. Both sides feature large settees. The U-shaped settee to port has a table adjacent to it that can be expanded to make a larger dining area. To stbd, just at the back of the settee is a pop-up flat screen TV. As you move forward to stbd is the helm station with electric helm seat with foot rest. The station is fully equipped with navigation instruments such as Raymarine Ray 260, Raymarine GS165, Raymarine ST Axium, Raymarine Axium pro 16, Seakeeper display, Volvo Penta joystick, Volvo Penta throttle shift control, and much more. The 360 degree windows that wrap around the helm station makes for an excellent view.

As you move forward centerline is set of steps to access the staterooms. Immediately to port at the base of the stairs is the wine refrigerator and the washer and dryer units. The third stateroom is located to the stbd featuring bunk beds, a flat-screen TV, and large window with blinds. The guest head is located opposite of this stateroom. It features a separate shower stall, generous counter space, and vanity sink with mirror.

The VIP stateroom is all the way forward. It offers a double berth with storage below, side by side pin lights, mirrored headboard, large windows on both sides with blinds, flat screen TV, drawers, and overhead hatch with screen cover. There is a private access to the guest head from the VIP stateroom.

All the way aft is the MAGNIFICENT master stateroom fit for a king, side by side lamps, mirrored headboard, large windows on both sides with blinds, a café table with two built in seats, flat screen TV, Polk audio, plenty of storage, and walk-in closet. The roomy master head is located to the fwd stbd side of this stateroom. It offers double shower, large vanity mirror, and his and hers wash basins.

Exclusions

Owner's personal belongings.
