SPECIFICATIONS

Overview

A rare opportunity to acquire one of the latest Scandinavian high-technology full carbon fibre motor yachts which delivers both pace and space. Cruising at 30 knots with a range of 500 nm, this would hard to better in any other yacht of this size. The design was Awarded Motorboat of the year in 2013, and this 2017 model delivers an impressive suite of features, including; sea keeper stabilizer, full tropical air-conditioning, comfortable 3-cabin layout, enclosed main saloon, dinette and helm station and interior upholstery by Hermes. Aft there is a retractable dining table with seating and submersible swim platform with jet tender, while forward there is a sun pad lounge area. The performance of the boat is to be experienced with the Volvo Penta IPS 800 engine and propulsion system providing unbelievable manoeuvrability. There are dual GARMIN displays and the yacht systems can be controlled via iPad controls. The yacht has been very well maintained, is still with her original owner and is now ready for a new journey.
