DETAILED INFORMATION

43' Tiara 4300 Sovran Motor Yacht NO NAME

43' Tiara 4300 Sovran Motor Yacht NO NAME

Manufacturer Provided Description:

The Tiara 4300 Sovran was a game-changer in the boating industry as the first American boat to be designed exclusively for Volvo's IPS drive system. Major IPS benefits include improved fuel efficiency and precise handling. Pod drives do not just outperform conventional inboard power They also allow more room in the engine room. In the 4300 Sovran, the Tiara engineers were able to use this extra space by extending the midcabin bulkhead aft, beneath the bridge deck to create a full-size guest cabin complete with its own head. The Sovran's luxurious interior with an appealing blend of high-gloss cherry cabinets, Ultra leather upholstery and hardwood flooring, features an open salon with convertible settee to starboard and full-service galley to port. The forward stateroom has a queen island berth and flat screen TV. The Sovran's open cockpit features forward and rear facing lounge seating with a centerline table. Note that the hardtop is fully integrated into the windshield. The above deck layout features raised helmdeck seating, state-of-the-art helm, and a wraparound cockpit settee. This is one of Tiara's best-selling models ever with over 100 being sold.

Hull and Deck

- Constructed with gelcoat outer layer, and hand-laid fiberglass with special blended premium resin
- Black gelcoat bootline with gold accent
