## Overview

---

*Available now*

### Tax Paid

Don and his wife bought FUNSEEKER brand new when they retired in 2002. They had a \$100,000 custom, very high quality custom hard top installed with partial sides and integrated ventilation to evenly distribute the air conditioning. Don is a retired engineer with performance and fuel burn spreadsheets, and with engine computer printouts. He can verify that he ran FUNSEEKER in accordance with Caterpillar factory recommendations.

As a courtesy to you, Don had told the local certified Caterpillar dealer to do "anything and everything to make FUNSEEKER run better than new". I have over \$50,000 of receipts for everything from 1000 hour service to valve lashing to new bottom paint and prop speed. She sits in brackish water behind Don's condo in Naples and is ready to go ASAP.

## Basic Information

---
