SPECIFICATIONS

Overview

The Com-Pac 23 is the top of the trailerable Com-Pac line, offering accommodations and equipment which make her a most exceptional yacht. With a two-cabin layout for privacy, a standard-equipment, hide-a-way galley and shoal-draft keel developed from NACA low-drag, high-lift wing sections, the Com-Pac 23 is ready for extended cruising and gunkholing. Below, there is lots of storage space, berths for four adults, teak and holly cabin sole, six bronze opening ports and extensive hand-finished teak wood trim. Topside, the large foredeck and wide sidedecks make moving around and handling sails a pleasure. The 7-foot-2, self-bailing cockpit has a gas tank storage compartment, plus port and starboard seat lockers. The hull and deck are fabricated of hand-laid fiberglass, with the hull having longitudinal and transverse stringers integrated into it for stiffness. The deck has core material over 100 per cent of its surface for rigidity and insulation. With her custom-designed, tandem axle trailer, the Com-Pac 23-3 is truly the "go anywhere" yacht. The masthead sail plan, supported by the eight-stay, stainless steel standing rig, powers her smoothly and efficiently.
