SPECIFICATIONS

Overview

An incredible 67m support vessel GARÇON was built by Dutch yard Damen Shipyards in 2012. GARÇON is the largest vessel in the Sea Axe range and can accommodate 21 crew and staff. GARÇON not only improves vessel operating profile and crew safety and comfort, the Sea Axe concept is also proving its worth when it comes to sustainability. The vessel exhibits superior motion behavior and significantly lower resistance through the water. This leads to a cut in fuel usage of 20% and, consequently, lower emissions. GARÇON is exclusively for sale through us.
