WALK THROUGH

Entering the Aft Deck via a transom door above the swim platform, a spacious area for entertaining with wicker style seating and a beautiful wood cabinet with sink, storage above and below. Wood exit doors on either side exit to the walkways accessing the forward deck. A companionway ladder slightly off center to port accesses the flybridge area. Entering the center companionway down in to the spacious salon area, beautiful wood cabinetry throughout, couch seating to starboard and a single seat to port. Moving forward a galley down configuration to port and dinette with room for four to starboard. Beautiful wood cabinetry throughout in very good condition. Moving forward of the galley, one finds a forward stateroom with a double berth and an on suite bath with enclosed shower. Moving aft of the salon down a companionway, one finds a spacious master suite with a large double berth, ample natural lighting through portholes, beautiful wood cabinetry on both port and starboard. An en suite bath with enclosed shower to starboard. The engine room is accessed via the galley salon companionway. Overall height with arch 17 feet 3 inches; without arch 13 feet 9 inches.

ENGINES

Detroit 6-71 TISerial numbers:6A459673 / 6A459807Year manufactured 1989The 6-71 is an inline six cylinder diesel engine. The 71 refers to the displacement in cubic inches of each cylinder. The engine's compression ratio is 18.7:1 with a 4.250 inch bore and a 5.00 inch stroke. The engine weighs 2,185 lb (991 kg) and is 54 inches long, 29 inches wide and 41 inches tall. The 6-71 is a two stroke engine. As the engine will not naturally aspirate, air is provided via a roots-type blower. However, on the 6-71T models, a turbocharger and a supercharger are utilized. Fuel is provided by unit injectors, one per cylinder. The amount of fuel injected into the engine is controlled by the engine's governor. The engine cooling is via liquid in a water jacket. Cool external water is pumped into the engine and passed through a heat exchanger mounted on or nearby in a "double loop" configuration.
