SPECIFICATIONS

Overview

Sanlorenzo has channeled its decades of experience into the SL86, combining signature styling with new innovations and an unparalleled level of customization within its category. The bulwarks is cut to let the larger side windows catch as much light as possible and let the guests enjoy the sea view even sitting on the sofa of the salon. This space on SL86 is wider, has more light, but doesn't affect the typical Sanlorenzo sober line, rather releasing a new freshness.

SL86 ferrying into the future

The stairway to the flybridge has the steps sided by two plate glass. They look like "floating". The staircase is no longer a box, but it is still in the salon like a piece of art. The aim is to optimize and maximize all the spaces and to enrich them with natural light.
