SPECIFICATIONS

Overview

This turn key vessel with low hours is a pleasure to operate for the novice and experienced boat operator. The Meridian Yachts 341 Sedan serves as an excellent platform for those making the move up from smaller boats to an actual cruising yacht. She's one of the few boats in class that offers a flying bridge. The ease of handling with the vessel's proprietary integrated vessel control system which integrates and simplifies bow and stern thrusters for easy docking.

Total Cabins: 2

Total Heads: 1

Hull and Deck Information

Hull Material: Fiberglass

Hull Configuration: Deep Vee

Engine Information

Engines: 2

Manufacturer: Mercury

Model: V8-8.2 MPI

Engine Type: Inboard

DETAILED INFORMATION

Introduction

The molded integrated swim platform of the 341 allows easy boarding for everyone. Past the transom storage locker and one step up from this platform on the starboard side and through the molded transom door takes you into the cockpit with its built-in two person upholstered transom seat. A curved, molded staircase leads from the port side of the cockpit up to the huge bridge deck with a rear overhang which virtually covers and protects the entire cockpit below. Seating for seven adults is provided on the bridge with an adjustable single helm chair for the captain on the starboard side conveniently located just about midship along the length of the 341. A double contoured seat is provided opposite the helm seat on the port side and a four person L-shaped lounge seat fills the aft and starboard side of the bridge with molded storage cabinets on both sides. The wood-grain dash of the main bridge helm features standard DTS (Digital Throttle and Shift) controls for the upgraded standard power this year of twin 8.2L Mercury® MerCruiser 425 horsepower inboard gas engines. Also standard is Mercury's SmartCraft™ instrumentation plus the all-new IVC (Integrated Vessel Control) system which "integrates and simplifies bow and stern thruster operation via an intuitive, boat-shaped helm control." Mercury's SmartCraft™ vessel integration technology monitors performance diagnostics and can assist in trip planning for instance by estimating how far a tank of fuel will take you and provides guidance on operating your vessel for efficient fuel use. A fibreglass radar arch is standard on the bridge as are helm and seat covers, a bimini top, plus a closable hatch cover over the staircase leading down to the cockpit. This is a great safety feature. A sliding glass door with optional stainless steel frame and roll screen leads from the cockpit to the very bright one level salon with 360° outward visibility via the windshield plus the opening side windows plus a second lower level of side windows providing a view outside while seated or standing. Headroom here is 6'5". Standard Ultra® Leather coverings add a rich texture to both the aft portside two-seater lounge. A hi-lo table fits neatly on the hardwood sole between these two lounges. A 20" television and bottle storage cabinet. Central vac, Comfort air conditioning, electric heat, and gloss finish natural cherry wood. The forward port side galley on the same level features solid cherry construction, natural hardwood flooring, Karadon™ solid-surface countertop, rolling pantry cabinet, microwave, under-counter refrigerator/freezer, and recessed electric cooktop. The head to starboard provides private access from the forward master stateroom or from the central companionway and features a separate shower stall, and VacuFlush® head.
