ABOUT

Pilgrim was built and finished in the Spencer tradition to the highest level for a very knowledgeable owner and exceeded all expectations. The current owner has upgraded and maintained the vessel to that same level. Pilgrim is fully serviced in better than new condition with custom features usually only found on much larger vessels. The raised helm deck provides excellent 360 degree visibility with easy access to the cockpit from the helm area. The low hour Volvo D-6 HP 435 IPS power is not only economical and reliable but makes vessel operation, especially docking, an enjoyable experience.

Pilgrim was designed and built to be lift kept during the summer hurricane months in a dry stack, hurricane proof enclosed building. Her bottom is reinforced so she can be easily lift kept or dry stack stored. Her original owner designed and equipped her for long distance travel with added storage, fuel, and refrigeration.
