- **Dual SIM cell access-point, WiFi Extender, and Antennas**
- **Seakeeper annual Maintenance**
- **Bottom Paint + Engine and Generator Service completed last January**
- **Ceramic Coating on the entire vessel in May**

LOS CONDORES is a 2019 Azimut 60 Flybridge built with entertaining and comfort in mind. She offers elegance, space, agility, and natural light flooding through large salon windows. She has ample seating throughout the boat that will allow you to enjoy meals and relaxation in a variety of locations.

The owner of LOS CONDORES has decided to transition into another yacht. He bought the 60' to enjoy the waters off of south Florida and the Bahamas. The seakeeper gyro provides the comfort for nights at anchor and the 25knot cruising speed ensures a quick trip to the desired destination. The three stateroom layout offers comfort for the entire family and if needed the fourth cabin back aft allows for additional guests or for a Crew of two.

LOS CONDORES is in like-new condition with extremely low engine hours and is ready to be sold!

The Williams Tender is not included in the sale of the vessel.

Shore power inlet Generator Inverter

Outside Equipment

Teak side decks Cockpit shower Wind generator Hydraulic gangway Swimming ladder Cockpit table Cockpit cushions Teak cockpit Gangway

FLYBRIDGE

With a newly redesigned layout, the flybridge is extremely spacious and it extends further aft than you may expect.

This area embodies all the elements of an Italian luxury product: long, simple lines that create areas for social interaction and ultimately to celebrate life with your family and guests on board.

The Flybridge is divided into 3 areas:

1. helm station.

With pilot and copilot seats, she offers her owner the ultimate pleasure in piloting, while flying above the water.

2. sun lounge to starboard.

This is just a few feet away from a grilling station. There's also an ice maker and a sink conveniently located in front of the dinette.

3. fully furnished seating area.

All of these seating feature foam cushions that are upholstered in a fabric that is super soft to the touch. Additionally, it's also easy to maintain... even in a marine environment.

Engine Room

Underfoot is the engine room access hatch. Down here is where we find a pair of VOLVO PENTA D-13 Diesel Engines each generating 900 horsepower.

The boat performed magnificently with a top speed in excess of 31 knots. Her cruise speed is 28 knots.

In terms of range, you can expect to get around 300 Nautical Miles every time you fill her up, and run her at around 23 Knots.

Swim Platform

Just a few steps down from the aft deck is the swim hydraulic teak platform. This is your ticket to enjoying the water anytime you want.

This is also where her tender is stored when underway. The hydraulic swim platform holds a tender of 3.25 mt.

There's also some secondary storage space- sufficient enough for a sea bob, fenders or diving gear.

Salon

The salon, that was designed by Achille Salvagni one of Interior Digests top 100 international designers.

The design philosophy is based on the theme of timeless calm and elegance- which also puts an emphasis on a contemporary look.

For materials, here we will see primarily brushed oak embellished with brass and stainless steel accents. These details are timeless and rich.

The salon offers your guests a great view of the their surroundings.

Forward of the seating area is the dinette that offers an unprecedented and unimpeded view of the sea through full high glazing over cutaway gunwales. This area finished (furnished) with a table that can be lowered to become a coffee table can be used both for dining and as a second lounge.

Galley

Across from the formal dining space is her striking galley. With plenty of counter top space and storage, this galley is a great place to prepare and cook your meals.

All of the appliances are made by Miele... a top brand producer with some of the most reliable appliances available on yachts today.

The galley is fully equipped with freezer, refrigerator, double sink and even a wine cooler.

Lower Helm

Forward of the galley is the lower helm.

This state of the art helm is equipped with the latest equipment available from the Azimut innovation lab. These systems insure optimal yacht management solutions and features like active trim control which automatically adjust the trim of the yacht while underway.

Not only does this give you one less thing to think about, but it also guarantees the lowest possible fuel consumption.

Electronic power steering allows you to customize the helm sensitivity by regulating the number of wheel turns and the force required. This also increases safety because the maximum steering angle is reduced at full throttle and increased at slower speeds.

Master

Here in the midship owners suite, the styling borrows a home-y feel.

All of the furniture fits this yachts contemporary stylings perfectly.

In addition to a queen berth, there is a beautiful vanity.

Like the rest of the staterooms, the master also has a private en suite.

Exclusions

Owner's personal belongings.
