SPECIFICATIONS

Overview

This very popular proven cruising yacht boasts the widest beam of any boat in this class, with a layout and floor plan providing more comfort and amenities than most any comparable offering. She sports a raised saloon and galley with rich finely crafted Cherry wood. The private master stateroom has a comfortable island queen berth, ample hanging lockers, built in cabinets and drawers. In addition, her expansive upper deck flybridge with "Summer Kitchen", generous seating and outdoor dining.

This yacht is in exemplary condition, has been owned since new by a knowledgeable yachtsman who has provided tremendous stewardship and care. Only used in the fresh waters of Lake Ontario since new. She is cruise ready, all you need is to bring your food, gear and go boating!

DETAILED INFORMATION

Overview

Manufacturer Provided Description There is plenty of room for seating and relaxing on the bridge. There is even a Summer Kitchen option providing a grill, sink and icemaker aft of the centerline helm. Wide molded steps offer safe and secure footing to the covered aft deck. Going forward, there are wide, lighted and recessed walkways with overhead protection leading to the foredeck. A stainless steel Sampson post and dual roller pulpit is perfect for setting the anchor and the optional windlass makes retrieval a snap. All rails, hatches and portlights are now fashioned from 316L stainless steel for easy maintenance and great looks. All Mainships, including the 400, are featuring beautiful cherry wood interiors. All cabinets, drawers and tables are solid cherry and the optional cherry and holly sole is very traditional as well as serviceable. The extended salon includes an Ultra leather sofa, entertainment center with Bose audio system, and Luce flat screen TV. A starboard side galley offers a full size, dual voltage refrigerator and freezer, microwave, 3-burner range and oven, and even a coffee maker. Special attention has been given to general and dishware storage and the location for an under counter trash receptacle. To port of the lower station is a full dinette that seats four with a comfortable bench and two chairs. Forward, is a master stateroom with a centerline inner spring queen berth and plenty of hanging, drawer and locker storage. A second stateroom offers two single berths and an optional innovative desk arrangement, and the head, with a separate stall shower is accessible from the master stateroom or the companionway.

Beginning aft, on the swim platform, a transom door leads to the completely covered aft deck/cockpit. Full walk-around, covered side decks with bulwarks and stainless steel rails offer safety and a sense of security when moving around underway. Going forward, a stainless steel Sampson post, electric windlass and dual roller bow pulpit make setting and retrieving the anchor a breeze.

The extended salon and galley area is entered from the aft deck through aluminum framed glass swing-out double doors. Rich satin finished cherry wood paneling is used throughout the interior. The salon and galley sole are cherry and maple. Immediately to starboard is the large galley with full size, dual voltage refrigerator and freezer, microwave, 3-burner range and oven, and a built-in coffee maker. There is an abundance of drawer and cabinet storage with a dedicated dish storage locker as well as an under counter trash receptacle. A flat screen TV and Bose audio system is mounted just above the refrigerator/freezer. Forward of the galley is the lower helm station and starboard side sliding entry door. On the port side aft is an Ultra leather sofa followed by a full dinette with high gloss cherry wood table and seating for four with a comfortable cushioned bench seat and two stools with cushions. Down three

steps centerline to port is the guest stateroom with two single berths. A filler cushion inserted between the berths converts them to king size. A cedar lined hanging locker is forward of the port side berth. The master stateroom is forward with a centerline inner spring queen berth with drawer storage beneath and two cedar lined hanging lockers. The head, with a separate stall shower is accessible from the master stateroom or the companionway directly across from the guest stateroom. The spacious flybridge is accessed by an easy molded stairway on the forward starboard side of the aft deck. The forward area of the bridge is fully enclosed by Isinglass with U-zip openings and features seating for a crowd. Two facing cushioned settees are separated by a large table with two leaves hinged to a stainless steel rail enabling them to swing down when not in use. The centerline helm with cushioned pedestal seat is flanked port and starboard by molded in forward facing companion seats. Just outside the enclosed area of the bridge aft to port is the "Summer Kitchen" contained in a fiberglass cabinet with lift up top which houses a propane grill, ice maker, sink and additional storage. A 24" round table with two deck chairs on the boat deck is perfect for alfresco dining or a late afternoon cocktail.
