The harmony of shape and elegance of space on the 68' Ego Super – highlighted by the contrast between the anthracite coloured hull and desert sand coloured superstructure – have been matched by means of a careful, in-depth study of each and every detail and solution.

In keeping with Riva tradition, the results are extremely elegant and highly innovative. The new version of this coupé is the result of the working relationship between Officina Italiana Design, the exclusive designer of all the yachts in the Riva range, AYT – Advanced Yacht Technology – Ferretti Group's naval research and design centre, and the team of architects and designers of Centro Stile Ferrettigroup. The great innovation is a large window in the hull set next to the full-beam Master cabin, located astern.
