SPECIFICATIONS

Overview

The new Swan 60 offers a high-volume interior, a large and well-protected cockpit and race levels of performance. To meet these conflicting demands, Nautor has made extensive use of state-of-the-art technology in the design and the construction methods. The boat features an entirely new hull built from advanced materials, while at the same time preserving Nautor Swan's core values: to be comfortable for cruising and fast for offshore racing

The result is very low drag, keel and rudder, and a long dynamic waterline at displacement and semi-planing speeds. These performance refinements also bring the advantage of improved sea-keeping qualities. The boat's high-stability, direct steering system, and foils with a forgiving performance all add up to a light and responsive yacht. The yacht can be sailed easily by just two people, thanks to powered winches and a cockpit layout that places the helmsman within easy reach of the winches. The steering position is carefully designed to allow the helmsman a clear view of the sails and approaching seas. The thinking behind the deck layout is to provide space for more than one activity while sailing or at anchor, yet still allowing unhindered movement around the boat at all times. The deck is very spacious and offers a functional full transom which features a sunbathing area and dinghy garage.

Moving below deck, the interior has been designed to maximize living space, with plenty of natural light. The galley provides all the facilities you might expect from a Swan of this size, and surprises and delights with ingenious details and design features, making the galley both attractive and absolutely practical to use. The large, open saloon is based around a spacious navigation station, and benefits greatly from hull windows, coachroof ports and wide hatches, giving both natural illumination and exterior views. Moving forward from the saloon, a generously sized owners cabin boasts the ambience, proportions and privacy normally reserved for much larger yachts. Finally, guests will enjoy their stay in two symmetrical after cabins, both of which are en-suite.

'Windward' was launched in May 2014 and is ready for racing or cruising.

Basic Information

Category: Cruising Sailboat

Model Year: 2014

Year Built: 2014

Country: Hong Kong

DETAILED INFORMATION

Remarks

The Swan 60 FD was conceived to meet a growing demand for a model engineered for performance, comfort and style. This performance orientated Swan boasts high stability, direct steering system, foils, carbon fibre spar package, and easy handling results in a light, responsive yacht. The cockpit is spacious and offers the choice of a clean open transom version or functional closed transom version, which features a sunbathing area and dinghy garage. The result of extensive research and use of advanced materials is a low drag hull and appendage package, with a long dynamic waterline at displacement and semi planing speeds. The Swan 60 FD has a T shaped blade keel and lead bulb and comes with two draft options (3.6 m and 2.9 m), both using the same structure and offering enhanced stability. Designed to maximize living space and offer plenty of natural light, the interior is of symmetrical linear layout and both attractive and practical, with options for the location of the owner's cabin. The large saloon combined with a spacious navigation station forms the base of the interior with a generously sized owner's cabin forward and two symmetrical guest cabins with en-suite facilities aft.

Exclusions

Owner's personal belongings.
