ПОДРОБНОЕ ОПИСАНИЕ

Princess 30M

THE HIGHEST SPECIFICATION PRINCESS 30M AVAILABLE NOW This is a rare opportunity to acquire the most highly specified, full options, Princess Yacht 30M on the market right now. A result of very particular and close collaboration between the Princess Yacht design studio, and multiple award winning M Class superyacht division, this Princess 30M is arguably as stunning and beautiful in her design and interior styling as she is technically specified with the greatest attention to detail and the renown PrincessYacht uncompromising and reputable quality. It is hard not to appreciate and be amazed by the level of details and bespoke customization on this yacht which make her a truly outstanding and unique. Her one-off interior wood furniture is from the highest of the exclusive superyacht Macassar Ebony collection in the piano-gloss finish. This forms a luxurious and elegant base to an exquisite mix of precious materials and stone throughout this superyacht with the finest Onyx, marbles, burred wood, wenge wood, specially sourced finest leather and fabrics, all of which elevates the feeling of luxury, prestige and exclusiveness further throughout the yacht which is already recognized as one of the best designed 30M superyacht in its class with large panoramic windows throughout allowing for plenty of natural lighting (especially in the main deck saloon and full beam master suite forward and cabins in the lower accommodation) and a layout that both makes entertaining and socializing with guests as equally enjoyable and relaxing with friends and family members in complete privacy, comfort, and safety. The main deck saloon is spacious and airy, with a private side balcony/terrace that can be open and closed. The mid ship dining area has a specially designed table that accommodate 10 people which can be extended to 12-14 if needed be, with stunning back-lit and color changing golden spider Onyx that is specially sourced from Italy to match the yacht interior theme. This is served by the adjoining full size galley that has a very convenient side door that operates on an automatic function. Either side of the dining area are beautifully finished bars and counter units which has dedicated storage for the yacht crystal set of glasses, cutlery, finest china, and accessories. These counter are also finished in matching golden onyx and complimented further by bespoke Burred walnut panels, and topped by specially sourced Crocodile leather. An identical unit is replicated towards the aft end of the saloon but with a discrete 55" TV on an up-down mechanism that can also twist and turn for viewing from all direction especially in the main sofa as well as the aft cockpit area. Furthermore, at a press of a button, the ceiling panels reveal a specially installed 86" screen in front of the dining bulkhead with another retracted projector allowing guests to enjoy an array of entertainment on virtual reality, or simply the occasional singings and movies entertainment! The Princess 30M has always had one of the best master suite on the main deck at the forward area with amazing space, natural lighting, for both comfort and privacy. She is also beautifully finished with white Onyx counter tops and throughout the bathroom. Indeed this theme of luxurious fittings and the usage of most premium exquisite materials are repeated throughout the rest of the 4 cabin in the lower accommodation which is accessed via a central stairway that is very comfortable. The lower aft "VIP Suite" has an adjoining partition which when open can create a huge full beam suite with one large bed and a sofa-seating area in the adjoining room, which can

be used for relaxing, entertainment room, or children room if needed be. Once closed, this is then separated into two rooms and the sofa can be converted into a full size bed, and each with its own luxuriously fitted bathroom with Ivory Grey Onyx (with a carefully designed Cross cut Eramosa onyx) which compliments the white(Lasso Bianco) marble flooring which is also used in the bulkhead instead of the standard wood furniture on other Princess 30M also. Further forward there are two more cabins on the port and starboard, both of which can be made as a double bed or separate twin by a sliding function, as well as additional pullman berth. The bathrooms are yet again beautifully finished with beautiful marble, onyx and special details. Up on the flybridge this yacht really shows how she can really entertain a large group in style and comfort. She features a large circular dining table that accommodate 10-12 people comfortably under the shade, while her aft seating area is similar to that of the Princess 40M flagship (World superyacht award winner) with large C shaped seating and served by an well equipped bar. Furthermore, when needed, the yacht also has got special airconditioning fitted to both the flybridge and aft cockpit complete with custom see-through enclosure so that you could enjoy cruising on the warmer days in comfort.

Her entertainment features doesn't stop just inside, she also features one of the most equipped set of watersports toys and equipments of any 30M yacht, including custom made sliders, inflatable swimming pool, jetski, seabob, jetboard, banana boat and doughnuts, kayak, and waterskis to name a few.

Beyond her luxurious and exclusive interior styling which has been designed to create a "wow" effect, and beyond the standard Princess Yacht award-winning build quality, layout and design excellence, this particular yacht has also had many technical upgrades for a truly superior superyacht that is capable, safe, and very reliable. The extended long-rang fuel tank (additional 2,300 lt to give 14,500 lt in total) allows her to cruise further and in complete silence thanks to her amazing construction which specially reduces noise and vibrations (cabins are built on "floating" floors with cushioning throughout for superyacht style noise-transfer efficiency). There is even further dynamat sound insulation throughout for even extra noise control perfection. The stabilizer is upgraded to the TRAC 16x model (usually used on 35M superyacht). The boat is fitted with the most advanced Alfa Laval MIV303 fuel polishing system to ensure cleaned fuel is used throughout especially when going through to more remote area, while there is trailing pumps fitted to also allow the boat to run on one engine if needed be, as well as auto troll function for slow speed cruising. The freshwater tank is made of stainless steel in place of standard. There is full internet and satellite TV system on board. The yacht comes ready with set of spare propellers, and shaft as well as a list of all spare parts. The yacht has been lightly used and lovingly and meticulously maintained by her owner and the Princess Yachts South East Asia team and presents one of the most special opportunity to enjoy one of the most special Princess 30M ever built and available right now. This is an opportunity not to be missed and is the only of her kind so she wont remain available for long so please contact us for a viewing and it will be a pleasure to show you in person how special she truly is.

Исключения

При продаже яхты исключаются личные вещи владельца.
