# ПОДРОБНОЕ ОПИСАНИЕ

## Overview

Manufacturer Provided Description The Award-Winning Hunter 33 is a stunning sailing yacht. Hunter's signature window line gives this yacht the sleek feel of the latest Hunters, but the improvements don't end there. The hull design has been improved, featuring a wider beam further aft as well as a more profound bow hollow. The result of this hull design is a longer dynamic waterline, which means more speed. The deck features a sleek, modern profile with large side windows allowing for increased interior light. The deck hatches are flush-mount, offering an enhanced look that complements the new profile. Lengthening the cockpit has allowed the new Hunter 33 to have a cockpit that is longer than its predecessor. The cockpit of the Hunter 33 also features a fold-down swim platform that extends the already lengthy cockpit when folded down while the boat is docked or at anchor. Extending the cockpit allows for a larger master aft cabin that features more headroom. Overall, the interior has been enhanced with a richer look and feel. Enhancements start at the sole of the interior which features a hardwood flooring look that accentuates the true beauty of the Hunter 33's interior. Corian galley countertops feature complementing stainless steel fiddles that not only keep items from falling off the countertops in a seaway but also serve as excellent hand holds when moving about below. The interior wood used for the bulkheads as well as cabinet doors has been rotated 90 degrees so that the wood grain runs horizontally instead of vertically. Not only does this add a crisp modern touch to the interior, it also gives the eye the impression of a larger interior space. The salon features several intelligent enhancements. To starboard, the comfortable settee features a center section that easily flips up to create a convenient chart table. The beauty of this system is its robust design...and no moving parts to wear out! To port, the elegant dinette sports Hunter's unique Easy Lift system. With a few simple cranks, the dinette table lowers to form the base of a double sleeper sofa. Above, near the overhead, Hunter has thoughtfully provided flat, fiddle-protected cabinet tops that supply even more storage space. With its iTech option, The new Hunter 33 introduces built-in state of the art internet connectivity and enhanced entertainment capabilities to everyday sailors like you. The Hunter 33 iTech option features an Apple TV module, iTech docking station, built-in HDMI and USB cabling. Also available on the new Hunter 33 is a cell phone booster antenna system with 30-mile range. In the salon, the port side settee features Hunter's unique easy flip navigation table. One effortless flip reveals Hunter's apple iTech docking station - your gateway to music, television programming, and blockbuster movie hits. Your iPhone or iPod slips securely into this dock, and your iPad can easily cable into this port as well. This dock will charge your Apple devices, but that's just the beginning. Play your favorite songs from your iPhone or iPod iTunes library both in the salon and in the cockpit, no matter where you are on the

water. Watch videos from your iPhone or iPod iTunes library on the 23" inch flat panel salon TV, even while at sea. If you have 3G reception or are docked in a WiFi hotspot, you can stream web content to your TV and even watch full-length Netflix movies via your Netflix account. In addition, available separately, our cell phone booster antenna system will extend your 3G reception and transmission up to 30 miles beyond the normal signal range, so you can stay within cell phone range longer – for more entertainment, and greater safety. The new Hunter 33 features built-in HDMI cabling ensures that the kids can connect their Xbox and Playstation and enjoy gaming for as long as YOU like. Choosing the iTech Option on the New Hunter 33 allows you to get away...while staying connected. Equipment RIGGING

- Running rigging replaced 2018-2019
- Cruising Spinnaker
