DETAILED INFORMATION

General Description

Loose Ends (previously known as Life of Reilley) is a custom allaluminum yacht unlike anything else currently on the market. This is a rare opportunity to buy a pedigree yacht of this caliber.

Loose Ends was Burger Boat Company's first full-displacement expedition style hull form. She boasts a comfortable ride and a classic, yet contemporary interior to complement her bold exterior. Launched in 2003, she has been perfectly maintained and upgraded annually with an open check book policy by her careful owner, including a recent thorough refit. Recent updates include installing a new Jacuzzi on the flybridge, rebuilding her main engines and generator, upgrading electronics and software, repairing running gear and steering systems, modernizing the AC system and various cosmetic improvements, to name a few. All of which Loose Ends in better condition than ever before.

As capable as she is good looking, Loose Ends is well suited for long-range cruising. She boasts exceptional seakeeping in heavy seas and low fuel consumption to get you where you want to go. Her upgraded Quantum Zero-Speed Stabilization system ensures comfort at anchor and underway. Powered by twin 800hp Caterpillar 3406E engines, Loose Ends has an impressive 2,300 nautical mile range at a cruise speed of 12 knots and can reach a maximum speed of 14 knots.

The yacht welcomes 10 guests in five luxurious staterooms, along with accommodation for seven crew. Guests are accommodated in a large, on-deck master suite with his and her en suites, and in two VIPs and two twins on the lower deck. The interior is timeless and luxe, with immaculate woodwork throughout, all of which provides a comfortable and stylish atmosphere.

Guests will enjoy spending time in the large main saloon, full-service bar and adjacent formal dining area. A stunning display cabinet to port is both beautiful to look at and functional, storing all the china and crystal needed for serving exquisite meals on board close to hand. A door forward of the dining area can be closed off to allow privacy

between the saloon and starboard foyer, where a beautiful spiral staircase runs down to the lower deck guest accommodation and up to the skylounge. This upper deck lounge is a sublimely relaxed area, featuring a games table and high-tech entertainment system for movie nights on board.

Loose Ends offers wonderful outdoor living areas as well, including an al fresco dining area and bar on the aft main deck. The flybridge has a brand new Jacuzzi, sunpads for lounging and a secondary helm station. Forward of the Portuguese bridge on the upper deck is another wonderful place for enjoying the journey with comfortable settees from which to take in commanding views.
