DETAILED INFORMATION

Rebel 47

It is hard to describe this special boat without delivering the same emotions, passion, and thrill that bursts out when on board. Performance, style, innovation, safety and unique design are all combined for the first time to create a special machine that is not only fun, breathtaking, but also luxurious and comfortable, and quite unlike anything else on water. Offering the flexibility, drivability and nearness to the sea that only a RIB can offer with the comfort, spaciousness and luxury of the highest quality yacht.

Its innovative technology, derived from an in-depth study of technologies applied in the field of military and rescue services, evolves and powers all the qualities of the world of high end RIBS and sports yachts. The hull comes from the world class experience of maxi-ribs from SACS, with special "D" shaped, closed-cell tubulars, pre-formed and covered with custom plastic coating and then with special layer of Hypalon neoprene, which also create a rubbing strake on the entire perimeter of the boat. The "D" section, with curved element on the outside increased the interior space and creates two protected and well sized passageways.

It comes as no surprise that this boat offers huge space for a great day out, or a very memorable overnight or extended weekend trips. Indeed, beyond the advance building quality that SACS has been known for, and entrusted by many world top superyachts as their tender and sports boat of choice, here, the famous Italian designer Christian Grande, take the interior design and styling to a whole new level. Her main deck is a complete walk around, with a great social layout of aft sunbed connected to the seating with table which can also lowers to become another lounging area. This is perfectly served by the bar and pantry area fitted with bbq, fridges, icemakers and plenty of storage beautifully blended in and finished in custom grey paint behind the wheelhouse with 3 majestic sports seat with perfect visibility all around and a carbon fibre dashboard with navigation and equipments to make any exotic supercars or jet surely in envy. The hardtop sunroof also features an electric opening centre which floods in natural lighting and fresh air further to make the experience even more lively and exhilarating. Forward, you could well be forgiven for thinking you are on a 60ft sportsyacht with its huge sunbed and uniquely two racing style perfectly formed chaise lounges. With all the excitement and opportunities to socialize and entertain on the main deck, it is amazing to see how further down below reveals a huge relaxing and living area which is completely airconditioned and protected. Here at the forward there is a spacious king size bed adjoining to a living area with sofa and additional storage as well as a mini bar/coolbox area, and a very well appointed bathroom. Further midship

there is also a full beam bed for another couple quite comfortably.

She is indeed an ideal outdoor-indoor sports rib-come-yacht especially with her bow and aft awning which give great sun protection yet the enjoyment of the water and elements that no other boats can offer. Indeed this experience and versatile usage is enhanced further with the aft garage being a perfect storage for water toys like the two seabobs and inflatable paddle boards as well as other watersports equipments. Divers can take benefit in storing dive tanks (as well as a Bauer compressor unit) in the garage, and access to the sea via the aft hydraulic transformer swim platform makes it an ideal entry as well as safe. Indeed, this swim platform can be a centre stage for a lot of social activity and fun that can be had, and in style and comfort. At the same time, with proven superyacht usage, she can also carry either a jetski or a mini jet tender if needed be to provide a truly unique experience and flexibility to the owner and guests, be it a fun day out privately at sea or going to shore or the beach clubs in true style.

With such thrilling performance and design features, it is easy to forget that in fact this is also the safest sports yacht one could possibly enjoy. From her comfortable ride with thanks to advanced deep v hull, through to special construction techniques giving it virtually an unsinkable and impenetrable foam-filled structure and a perfect weight distribution and stability, it is not hard to see why SACS has been the choice of superyacht connoisseurs throughout the world, and indeed this flagship, best of the best Rebel 47 model surely will impress in style for years to come.
