## Overview

---

### **Beautiful, immaculately cared for 2001 Superhawk with new engines & drives in 2016**

Only 57 hours on 3 new 2016 MerCruiser 8.2 MAG gas 415hp engines, rebuilt Bravo 1 drives with new gimbal bearings and seals. This is a beautiful boat that you absolutely must see. This mostly freshwater Superhawk. All new electronics not used yet. Recently updated with new cockpit upholstery, this 48' Superhawk is the Sunseeker to buy!

### **Manufacturer Provided Description**

The Superhawk 48 is capable of 60 knots. Imaginative styling, sophisticated engineering, and proven high-tech construction methods combine to deliver a boat designed to take punishing treatment and be handled with ease. Even at high speeds the ride is dry, with a deeply upholstered sundeck and cockpit seating for six around a folding dining table. The Superhawk 48 is as close to a racing boat as a cruiser can be. The accommodation below deck is a startling contrast to the lean and mean exterior. The interior's soft lines are matched by practical features which include a galley and a head with shower. With a double-berth cabin, the Superhawk 48 can offer more than just an exciting day out. HIGH PERFORMANCE POWERBOATS: The high performance range demonstrates Sunseeker's racing heritage. Designed for exciting days out, long weekends, or for long-range cruising at speed, they make the most of the racing lines that define Sunseeker performance. In addition to performance and excellent cockpits, the accommodation below decks is surprisingly spacious. SUNSEEKERS: Sunseeker is the largest privately-owned builder of production cruisers in the world today. The performance of its boats demonstrates the skills of its world-class design team. Sunseeker uses the best materials, the latest design techniques and construction methods, together with rigorous quality control procedures. With a choice of propulsion systems, layouts and furnishings and fittings, these boats are truly made to order. Sunseeker support is available all over the world.
