Fuel Type: Gas

DETAILED INFORMATION

Overview

Accommodations The Everglades 260CC is cut from the same cloth as the innovative award winning 290 Pilot. Packed with unparalleled amenities, the 260cc offers standard features that are available only as options from other manufacturers including:

- Custom Fiberglass Hardtop
- Custom Leaning Post
- Powder Coating
- Lockable Rod Storage
- LED Lighting
- Automatic Windlass
- Rocket Launchers
- Spreader Lights
- Docking Lights
- Pull up SS Cleats
- Marine Head
- Windshield Wiper and Wash
- Plus Much More...
- Finished compartments through-out, matching powder-coated rails, red LED lighting for night runs, signature seating in front of, at, and behind the helm. And like all Everglades boats, the 260cc is built with the patented RAMCAP construction process to create a truly unsinkable fishing boat for the safest experience on the water.
- Twin Honda 225 Four Stroke VTEC (JD Power Winner) AM/FM/CD with Satellite Radio Stainless Anchor Edson Stainless Steel Wheel with Suicide Knob

Layout The bow area of the 260CC is well organized with benches on both sides and a forward anchor locker. Storage under the seats can handle most of the gear you'll bring on board. Behind the seats are lockers for rods to keep them organized and out of sight. The forward 129-gallon capacity fish locker has a pump-out for easy cleaning, and gunwales around the 260 are wide and topped with aggressive grip surfaces, powder-coated rails, and pull-up cleats to keep the lines fair. In the front of the center console are signature Everglades's seats with room for two, complete with headrests and grab rails for safety. Other than behind the wheel, these are the prime seats on board. The aft cockpit is the prime casting space. Here you'll find three-rod storage racks, and under the gunwales is a stainless steel toe-kick board to anchor your feet while fighting a big fish. Coaming pads are also standard on this model. In the floor is a 66-gallon fish box with pump-out. The aft bench is a real work of art. It deploys down easily, tips back up to add casting space, and when you need to check the batteries it

flips-up from the bottom to reveal them neatly organized in a tray, and well out of the bilges. This is a very innovative and smart use of space. Another good use of space is the slide-out Igloo cooler drawer located in the port corner. On top of the stern wall is another station to prepare fish or more bait, and it has an overboard drain for easy clean up. Rounding out this cockpit is the lockable transom door, which is always useful, especially when hauling in a big catch. HelmThe helm is truly designed for comfort, starting with the plush padded console seat. Our boat had the Honda engine digital gauges, which let you keep a close eye on the performance of the engine. A large space for flush mounted electronics is just behind the wheel, and the power-assisted hydraulic steering made handling smooth, even in the rough water. Inside the center console is the head compartment, which has a deep-V design and provides a generous amount of headroom. It's complete with a standard china toilet with macerator and holding tank, some storage for small items, and offers easy access to the connections for the electronics on the dash. The T-top gave us a welcome cover from the sun and it also added more rocket launcher rod holders. Furuno GPS and Radar.Fishing FeaturesThe leaning post workstation is very impressive and easy to work with. The boat has more signature Everglades seating, a fire extinguisher properly placed where the captain can get to it immediately, and the sides have Plano tackle boxes. The back of the leaning post is bait central. Knife and tool organizers are placed across the top, keeping tips and blades safely away. To the right is a small sink to rinse off and to the left a cutting board top to prepare the bait. In the center is the 55-gallon baitwell with clear top and magnetic catch to hold it open while dipping bait from the well. The well has rounded sides and blue lights to keep the bait calm and lively.Electronics

- Furuno NavNet Chartplotter/Radar
- Furuno FCV-585 Fishfinder
- Uniden ES VHF at Helm
- Fusion CD Player/Stereo

Exclusions

Owner's personal belongings.
