HIGHLIGHTS: 4 CABINS - REFIT 2019- NEW HULL PAINT 2019

Princess 62 combines high performance with spacious accommodation and dynamic good looks. Her deep V hull has been developed with a generous beam so as to allow a good sized galley to be located on the main deck in conjunction with a separate dining area and a large and comfortable aft saloon with its own entertainment centre. This allows the lower deck accommodation to be designed on the same principles as much larger boats with a full beam owner's cabin, a VIP suite forward, and two further guest cabins as well as a laundry centre. The wide beam also means plenty of room in the aft cockpit and on the flybridge with large seating areas, a separate sunbed, and a wet bar with barbeque. The hull design has been carefully configured to combine outstanding seaworthiness with high speeds so as to allow extended fast cruising whilst retaining simple and straightforward handling characteristics which are further enhanced through power assisted steering, electronic engine controls and a powerful bow thruster for easy manoeuvring.
