SPECIFICATIONS

Overview

Ferretti Yachts 750 represents another step forward in the development of the Ferretti Yacht range over 70 feet, featuring a 22.75 m overall length and a 5.69 m full beam. Evolution of the successful Ferretti Yachts 720, it features many relevant innovations, both inside and outside. Result from the settled collaboration between Studio Zuccon International Project, AYT&D - Advanced Yacht Technology & Design and the Ferretti Group's team of engineers, architects, and designers, Ferretti Yachts 750 immediately strikes the attention for its outer profile, which is even sleeker and sportier, thanks to the new flybridge with an elongated tail. The model presented in its standard version, with a large bimini top, approximately 5 meter long. The flybridge is even more spacious, since it is davit-free. The sunbathing area of Ferretti Yachts 750 is fitted with roll bar and built-in bimini top. In the outer stern area, the distinguishing feature is the electrohydraulic swim platform, more than 1.5 meter long. It can be lowered 50 cm underwater, making the launching of the tender easier. The swim platform can lift up to 450 kg and it can host a tender of approximately 4 meters. Ferretti Yachts 750 available with optional version, two 1524 mph MTU 10V 2000 M93. As for performance, while with the optional engines, the maximum speed is 32.5 knots and the cruising speed is 29 knots.
