## Overview

---

2013 Ferretti 620 Fly with Gyro Stabilization

Original owner

See 3D Virtual Tour here: Ferretti 620, result of cooperation between Studio Zuccon International Project, the AYT (Advanced Yacht Technology), the Groupâ's naval research and design centre and the team of architects and designers of Ferretti Groupâ's Centro Stile, replaces and re-examines the Ferretti 592, from which its origin and inspiration come. Ferretti 620 features spacious areas for socialising, both on the main deck and externally. The lower deck has two large guest cabins and a full-beam master cabin with large, open view windows, typically a characteristic of much larger yachts. Externally, the profile has been made lighter through the insertion of four large windows in the hull: two large windows with portholes which can be opened have been fitted at bow, in the VIP cabin, and two oval windows with double portholes light the guest cabins. The cockpit has been extended in length and rendered more usable through insertion of a fixed teak table and relocation of the gangway to the left, a typical solution for much larger yachts, in order to make the access point for boarding more functional. Beam: 17 ft. 3 in. Displacement: 88251 Fuel tank capacity: 977 Water tank capacity: 140 Speed max: 33 Range cruising: 300
